

Western Riverside Council of Governments Technical Advisory Committee

AGENDA

**Thursday, August 17, 2023
9:30 AM**

**Western Riverside Council of Governments
3390 University Avenue, Suite 200
Riverside, CA 92501**

Remote Meeting Locations:

**City of Beaumont
Beaumont Civic Center
550 East 6th Street, Map Room
Beaumont, CA 92223**

**City of Calimesa
Senior Center Map Room
908 Park Avenue
Calimesa, CA 92230**

**City of Lake Elsinore
City Hall City Managers Office
130 S. Main Street
Lake Elsinore, CA 92530**

**City of Murrieta
1 Town Square
Murrieta, CA 92562**

**City of Temecula
City Manager's Office
41000 Main Street
Temecula, CA 92590**

**City of Wildomar
23873 Clinton Keith Rd.
Suite 201**

Wildomar, CA 92595

**3593 Eastfield Court
Carmel, CA 93923**

Committee members are asked to attend this meeting in person unless remote accommodations have previously been requested and noted on the agenda. The below Zoom link is provided for the convenience of members of the public, presenters, and support staff.

Public Zoom Link

Meeting ID: 851 4398 9113

Passcode: 843908

Dial in: (669) 900 9128 U.S.

In compliance with the Americans with Disabilities Act and Government Code Section 54954.2, if special assistance is needed to participate in the Technical Advisory Committee meeting, please contact WRCOG at (951) 405-6706. Notification of at least 48 hours prior to meeting time will assist staff in assuring that reasonable arrangements can be made to provide accessibility at the meeting. In compliance with Government Code Section 54957.5, agenda materials distributed within 72 hours prior to the meeting which are public records relating to an open session agenda item will be available for inspection by members of the public prior to the meeting at 3390 University Avenue, Suite 200, Riverside, CA, 92501.

In addition to commenting at the Committee meeting, members of the public may also submit written comments before or during the meeting, prior to the close of public comment to lfelix@wrcog.us.

Any member of the public requiring a reasonable accommodation to participate in this meeting in light of this announcement shall contact Lucy Felix 72 hours prior to the meeting at (951) 405-6706 or lfelix@wrcog.us. Later requests will be accommodated to the extent feasible.

The Committee may take any action on any item listed on the agenda, regardless of the Requested Action.

- 1. CALL TO ORDER (Rob Johnson, Chair)**
- 2. PLEDGE OF ALLEGIANCE**
- 3. ROLL CALL**
- 4. PUBLIC COMMENTS**

At this time members of the public can address the Committee regarding any items within the subject matter jurisdiction of the Committee that are not separately listed on this agenda. Members of the public will have an opportunity to speak on agenda items at the time the item is called for discussion. No action may be taken on items not listed on the agenda unless authorized by law. Whenever possible, lengthy testimony should be presented to the Committee in writing and only pertinent points presented orally.

5. SELECTION OF TECHNICAL ADVISORY COMMITTEE LEADERSHIP FOR FISCAL YEAR 2023/2024

A. Leadership Selection for Fiscal Year 2022/2023 and Recognition of Outgoing Chair

- Requested Action(s):** 1. Select a Technical Advisory Committee Chair, Vice-Chair, and 2nd Vice-Chair for Fiscal Year 2023/2024.

6. CONSENT CALENDAR

All items listed under the Consent Calendar are considered to be routine and may be enacted by one motion. Prior to the motion to consider any action by the Committee, any public comments on any of the Consent Items will be heard. There will be no separate action unless members of the Committee request specific items be removed from the Consent Calendar.

A. Summary Minutes from the June 15, 2023, Technical Advisory Committee Meeting

- Requested Action(s):** 1. Approve the Summary Minutes from the June 15, 2023, Technical Advisory Committee meeting.

7. REPORTS / DISCUSSION

A. Appointment to the Riverside County Emergency Medical Care Committee

- Requested Action(s):** 1. Appoint one member of the Technical Advisory Committee as the WRCOG alternate representative to the Riverside County Emergency Medical Care Committee.

B. AB 602 Compliance and Residential Trip Generation Studies Activities Update

- Requested Action(s):** 1. Receive and file.

C. REAP SRP 1.0 & 2.0 Housing Activities Update

- Requested Action(s):** 1. Receive and file.

8. REPORT FROM THE EXECUTIVE DIRECTOR

Dr. Kurt Willson

9. ITEMS FOR FUTURE AGENDAS

Members are invited to suggest additional items to be brought forward for discussion at future Committee meetings.

10. GENERAL ANNOUNCEMENTS

Members are invited to announce items / activities which may be of general interest to the Committee.

11. NEXT MEETING

The next Technical Advisory Committee meeting is scheduled for Thursday, September 21, 2023, at 9:30 a.m., in WRCOG's office at 3390 University Avenue, Suite 200, Riverside.

12. ADJOURNMENT

Western Riverside Council of Governments Technical Advisory Committee

Staff Report

Subject: Leadership Selection for Fiscal Year 2022/2023 and Recognition of Outgoing Chair
Contact: Chris Gray, Deputy Executive Director, cgray@wrcog.us, (951) 405-6710
Date: August 17, 2023

Requested Action(s):

1. Select a Technical Advisory Committee Chair, Vice-Chair, and 2nd Vice-Chair for Fiscal Year 2023/2024.
-

Purpose:

The purpose of this item is to select new Technical Advisory Committee leadership for Fiscal Year (FY) 2023/2024 and recognize the outgoing Chair.

WRCOG 2022-2027 Strategic Plan Goal:

Goal #4 - Communicate proactively about the role and activities of the Council of Governments.

Background:

WRCOG would like to recognize outgoing Chair Rob Johnson, City of San Jacinto, for his efforts in leading the Technical Advisory Committee meetings during the previous fiscal year. Staff appreciates his hard work and dedication in leading the meetings.

WRCOG's Committee leadership positions are selected at the start of each fiscal year. The leadership for the Executive Committee for Fiscal Year 2023/2024 is as follows:

Chair: Chris Barajas, City of Jurupa Valley
Vice-Chair: Rita Rogers, City of Perris
2nd Vice-Chair: Brenda Dennstedt, Western Water

Historically, the Technical Advisory Committee positions have coincided with those of the Executive Committee, although there are no requirements for this pattern stipulated in WRCOG's JPA or Bylaws.

Prior Action(s):

None.

Fiscal Impact:

There is no fiscal impact associated with the action of this item.

Attachment(s):

None.

Technical Advisory Committee

Minutes

1. CALL TO ORDER

The meeting of the WRCOG Technical Advisory Committee was called to order by Chair Rob Johnson at 9:30 a.m. on June 15, 2023, in WRCOG's office.

2. PLEDGE OF ALLEGIANCE

Chair Johnson led members and guests in the Pledge of Allegiance.

3. ROLL CALL

- City of Beaumont - Elizabeth Gibbs
- City of Calimesa - Will Kolbow
- City of Canyon Lake - Nicole Dailey
- City of Eastvale - Mark Orme
- City of Hemet - Mark Prestwich
- City of Jurupa Valley - Rod Butler
- City of Lake Elsinore - Jason Simpson*
- City of Menifee - Armando Villa*
- City of Moreno Valley - Michael Lloyd
- City of Murrieta - Kim Summers
- City of Norco - Lori Sassoon
- City of Perris - Ernie Reyna
- City of Riverside - Mike Futrell
- City of San Jacinto - Rob Johnson
- City of Temecula - Betsy Lowrey
- City of Wildomar - Dan York
- County of Riverside - Jeff Van Wagenen
- EMWD - Jolene Walsh
- March JPA - Dan Fairbanks

* Arrived after Roll Call

Members absent:

- City of Banning
- City of Corona
- Western Water

4. PUBLIC COMMENTS

There were no public comments.

5. CONSENT CALENDAR – (County of Riverside / Jurupa Valley) 17 yes; 0 no; 0 abstention. Item 5.A was approved.

A. Summary Minutes from the May 18, 2023, Technical Advisory Committee Meeting

Action:

1. Approved the Summary Minutes from the May 18, 2023, Technical Advisory Committee meeting.

6. REPORTS / DISCUSSION

A. I-REN Orientation Meetings

Tyler Masters, WRCOG Program Manager, reported that I-REN is composed of WRCOG, CVAG, and SBCOG, with a goal to implement energy efficiency programs and services within Riverside and San Bernardino Counties. There will be a total of 18 orientation meetings within the different member agencies beginning in May through the end of summer to introduce I-REN to jurisdictional staff, and inform them of its goals.

Action:

1. Received and filed.

B. Streetlight Program, Broadband, and Energy Resilience Activities Update

Daniel Soltero, WRCOG Program Manager, reported that WRCOG will be posting a Request for Proposals in June 2023, seeking streetlight operation and maintenance providers for nine agencies and approximately 36,000 streetlights, which would include outages, knockdowns, retrofits, and other maintenance calls. Staff is currently seeking more participants from member agencies to participate as the Bid Review Committee. There has been an increase in new streetlight installations, as various members are adding them to the program; nominal increases to revenues are expected.

Over the last year, WRCOG staff have been tracking broadband funding opportunities and participating in broadband workshops to bring broadband to the region. The Local Agency Technical Assistance grant awarded five out of seven of the Riverside County applicants with a total of \$2.2M. Last Mile Deployment will fund broadband infrastructure projects to connect unserved and underserved communities with broadband service. The CPUC released the Grant Application Tool and will begin accepting applications in summer of 2023. Member agencies can use the Local Jurisdiction Permitting Playbook as a resource to help attract investment and deploy broadband.

With regard to the Energy Resilience Plan 2.0, WRCOG was awarded \$421K to study up to 10 sites across the subregion for feasibility of microgrids and community resilience centers. Public workshops will be conducted to obtain community input.

Action:

1. Received and filed.

C. Western Riverside County Clean Cities Coalition Activities Update

Taylor York, WRCOG Program Manager, reported that WRCOG is working to apply for funding for an electric car share program and is currently seeking letters of support from eligible cities. There was a Community Transportation Needs Assessment done in the Cities of Corona, Moreno Valley, and San Jacinto, and deployment in those member agencies is currently underway.

WRCOG was awarded a Community Engagement Liaison by the U.S. Department of Energy for two years; the incumbent will focus on mobility-related challenges in EEJ communities.

The second Clean Cities Coalition meeting was held on April 26, 2023, at Karma Automotive; staff provided an overview of the Coalition's annual plan. One-on-one meetings with each jurisdiction are currently in progress, and the next Clean Cities Coalition meeting is scheduled for July 26, 2023, at a location yet to be determined.

AB 1236 requires cities and counties to limit electric vehicle charging station project reviews to health and safety requirements. AB 970 refers to permit streamlining for vehicle charging stations. If not addressed within 60 days, the application will be automatically approved.

WRCOG was also awarded a grant for the Houston to Los Angeles (H2LA) Hydrogen Corridor Planning Project to fuel along I-10 from Houston to Los Angeles. Staff will conduct direct engagement with cities along the I-10 corridor beginning in July 2023.

Staff is currently looking for funding for the Western Riverside County Zero-Emissions Vehicle (ZEV) Transition Tool. They will work with member agencies to deploy chargers and vehicles, and create a resource to help members plan for and transition to ZEV.

Action:

1. Received and filed.

D. Southern California Edison 2023 Wildfire Mitigation Plan

Jeremy Goldman from Southern California Edison (SCE) reported that SCE covers 50,000 square miles across southern and central California, with over 5M customer accounts, with nearly 27% of the service area falling under high-risk of fire areas. In the past two years, there has been a decrease in Public Safety Power Shutoffs (PSPS) activations, meaning a better quality of service, and less service interruptions and de-energizations.

Eileen Bores from SCE stated that SCE will continue to harden the grid using advanced technologies and deploying complementary mitigations to achieve the greatest risk reductions. This can include replacing bare overhead powerlines with coated wire, to prevent arcing or sparking if it comes in contact with anything that may land on it. Inspections were conducted in high-risk areas by land and by air using drones and helicopters to assess necessary maintenance for repair or replacement. Vegetation management such as tree pruning is also very important.

Transformers are filled with a biodegradable fluid that helps insulate and cool them. Remote controlled automatic reclosers can switch off power when there is an issue and enable segmentation of circuits to minimize customer impacts.

Mark Cloud from SCE added that there are pre-selected sites in various cities that have been designated to provide affected customers with cooling centers with charging services, access to snacks, water, and ice, and translation services in case of an outage. For those that rely on medical devices, they are placed on a priority list to make sure they are informed about any emergency. An instant rebate option for those medical devices and affordable batteries are available.

There is an outage map available for the public to stay informed. Texts are also sent to notify customers of any emergency or outages. Safety preparedness plans are available on the SCE website.

Committee member Jolene Walsh asked if the SCE weather stations are connected to the broader California CIMIS stations or just used for SCE.

Bob Sterns stated all of the weather stations and wildfire cameras are available on the SCE website. All links and resources will be provided to the Committee.

Action:

1. Received and filed.

7. REPORT FROM THE EXECUTIVE DIRECTOR

Chris Gray, WRCOG Deputy Executive Director, reminded the Committee of the upcoming General Assembly on June 29, 2023, at Pechanga Resort Casino. If anyone is having issues with registration, please let WRCOG staff know as soon as possible. He thanked sponsors for their support.

8. ITEMS FOR FUTURE AGENDAS

There were no items for future agendas.

9. GENERAL ANNOUNCEMENTS

There were no general announcements.

10. NEXT MEETING

The Technical Advisory Committee is dark during the month of July. The next Technical Advisory Committee meeting is scheduled for Thursday, August 17, 2023, at 9:30 a.m., in WRCOG's office located at 3390 University Avenue, Suite 200, Riverside.

11. ADJOURNMENT

The meeting of the Technical Advisory Committee adjourned at 10:24 a.m.

Western Riverside Council of Governments Technical Advisory Committee

Staff Report

Subject: Appointment to the Riverside County Emergency Medical Care Committee
Contact: Dr. Kurt Wilson, Executive Director, kwilson@wrcog.us, (951) 405-6701
Date: August 17, 2023

Requested Action(s):

1. Appoint one member of the Technical Advisory Committee as the WRCOG alternate representative to the Riverside County Emergency Medical Care Committee.

Purpose:

The purpose of this item is to request one alternate appointment to the Riverside County Emergency Medical Care Committee (EMCC).

WRCOG 2022-2027 Strategic Plan Goal:

Goal #4 - Communicate proactively about the role and activities of the Council of Governments.

Background:

Membership on the EMCC is determined by the Riverside County Board of Supervisors. Consistent with previous years, the EMCC has requested that the WRCOG's Technical Advisory Committee (TAC) recommend a TAC member to serve as an ex-officio member of the EMCC. If approved by the Board of Supervisors, that member will represent WRCOG on the EMCC.

The EMCC was established on October 15, 1985. Article 3, Sections 1797.270 , 272, 274 and 276 of Division 2.5 of the Health and Safety Code sets forth the responsibilities for the establishment and function of the County's EMCC. The composition of the EMCC is established by the attached County Board Resolution 2001-358, dated December 18, 2001, and includes members appointed by the Board of Supervisors. The membership includes a representative nominated by WRCOG.

The function of EMCC is to advise the Riverside County Board of Supervisors on all aspects of emergency medical care within the County, to report on observations, and to provide recommendations concerning the feasibility and content of emergency medical care programs within the County. The EMCC is comprised of 15 ex-officio members, one of which is a City Manager appointed from WRCOG. WRCOG is required to appoint one representative and one alternate to the EMCC.

The regular length of term is for a period of three years and members may serve a maximum of three consecutive terms; the current term expires June 30, 2025. Meetings are held four times a year.

Remaining meetings for the calendar year are scheduled as follows:

1. Wednesday, September 27, 2023, 9:00 a.m. - 12:00 p.m.
 - Riverside University Health Systems Main Campus
26520 Cactus Ave., Moreno Valley, CA 92555
Room: Magnolia A-B
2. Tuesday, December 12, 2023, 9:00 a.m. - 12:00 p.m.
 - Ben Clark Training Center
16902 Bundy Ave., Riverside, CA 92518
Classroom / Module B

Prior Action(s):

May 19, 2022: The Technical Advisory Committee appointed Jason Simpson, City of Lake Elsinore, as the representative and Chris Mann, City of Canyon Lake, as the alternate member as the WRCOG representatives to the Riverside County Emergency Medical Care Committee.

Fiscal Impact:

This action is for an appointment to an outside committee and has no fiscal impact to WRCOG.

Attachment(s):

[Attachment 1 - EMCC membership composition](#)

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

FROM: Community Health
Agency/EMS

SUBMITTAL DATE:

SUBJECT: Emergency Medical Care Committee (EMCC) Resolution

RECOMMENDED MOTION: That the Board of Supervisors: 1) Adopt the attached Resolution No. 2001-358 regarding membership composition of the Emergency Medical Care Committee; 2) Authorize the Clerk of the Board to sign this form to enact Resolution No. 2001-358; and 3) Direct the Clerk of the Board to return a signed copy of this form and the attached resolution to the Community Health Agency for further processing.

BACKGROUND: The Emergency Medical Care Committee membership Composition Resolution was last changed in 1996. Since that time, representing organizations have changed their structure. The proposed Resolution designates membership that reflects those entities that should be on the committee as a consequence of their involvement in the County's Emergency Medical Services system. The EMCC approved the proposed Resolution at their October 2001 meeting.

2 RESOLUTION NO. 2001-358

3 RESOLUTION OF THE BOARD OF SUPERVISORS OF THE
4 COUNTY OF RIVERSIDE PROVIDING FOR AN EMERGENCY MEDICAL CARE
5 COMMITTEE FOR THE COUNTY OF RIVERSIDE
6

7 WHEREAS, the Board of Supervisors of the County of Riverside established the Emergency
8 Medical Care Committee (EMCC) on October 15, 1985.

9 BE IT RESOLVED AND ORDERED by the Board of Supervisors of the County of
10 Riverside, State of California, in regular session assembled on _____, 2001, that
11 effective _____, 2001, an Emergency Medical Care Committee is now
12 established within and for the County of Riverside as follows:

- 13 1. The Riverside County Emergency Medical Care Committee shall consist of fifteen (15)
14 members, all non ex-officio members are appointed by the Board of Supervisors and the
15 composition of this committee is as follows:
- 16 a. One Emergency Department Physician, practicing in a hospital located within Riverside
17 County nominated by the Emergency Department Directors' Advisory Committee;
 - 18 b. One ex-officio representative from the Healthcare Association of Southern California to
19 be the Vice President of the Inland Regional Office;
 - 20 c. One Physician representative of the Riverside County Medical Association nominated by
21 that organization;
- 22

- d. One representative from the Riverside County Ambulance Association nominated by that organization;
 - e. One Fire Chief representing the Riverside County Fire Chiefs' Association nominated by that organization;
 - f. One City Manager from Coachella Valley Association of Governments (CVAG) nominated by that organization;
 - g. One City Manager from Western Riverside Council of Governments (WRCOG) nominated by that organization;
 - h. One representative of the Riverside County Law Enforcement Agency Administrators' Association nominated by that organization;
 - i. One representative of the Riverside County Prehospital Care Advisory Committee nominated by that committee;
 - j. One ex-officio representative of the Riverside County Fire Department appointed by the Riverside County Fire Chief; and
 - k. One member-at-large from each Riverside County Supervisorial District.
2. Non ex-officio members shall serve a three (3) year term with staggered expiration dates so that no more than one-third of the membership shall require replacement or reappointment at any one time. Members may serve a maximum of three (3) consecutive terms.
 3. The Committee shall choose its chairperson and vice-chairperson annually, and shall determine the time and place for regular meetings of the Committee.

- 1 4. A quorum shall consist of one more than half the number of filled committee positions.
2 Action taken shall require the affirmative vote of a majority of those present. The Chairman
3 votes only in case of a tie.
- 4 5. The Committee shall perform the functions of an Emergency Medical Care Committee
5 defined by Article 3, Chapter 4 of Division 2.5 of the California Health and Safety Code.
- 6 6. The Committee shall serve in an advisory capacity for the Board of Supervisors concerning
7 all aspects of emergency medical care within the County and report to the Board in
8 conjunction with its review of the various aspects of the emergency medical care within the
9 County, the Committee shall report to the Board of Supervisors, its observations and
10 recommendations concerning the feasibility and content of emergency medical care programs
11 within the County in conjunction with cities within the County, other counties, the State and
12 the United States.
- 13 7. Except for Supervisorial appointees, each organization may designate an alternate to serve in
14 the event of an absence by that organization's primary member.
- 15 8. The EMCC shall prepare an annual report to the Board of Supervisors on the current and
16 anticipated condition of Emergency Medical Services (EMS) and EMS system operation
17 within the County.

18 BE IT FURTHER RESOLVED AND ORDERED by the Board of Supervisors of the County
19 of Riverside, State of California, that effective immediately on the adoption of this resolution that all
20 prior resolutions concerning the establishment of the Emergency Medical Committee, including but
21 not limited to, Resolution No. 96-132 are hereby superceded and rescinded.

Western Riverside Council of Governments Technical Advisory Committee

Staff Report

Subject: AB 602 Compliance and Residential Trip Generation Studies Activities Update
Contact: Delia Votsch, Associate, Fehr & Peers, d.votsch@fehrandpeers.com, (949) 308-6323
Date: August 17, 2023

Requested Action(s):

1. Receive and file.

Purpose:

The purpose of this item is to provide an overview of Assembly Bill (AB) 602 and present the findings of the Residential Trip Generation Studies.

WRCOG 2022-2027 Strategic Plan Goal:

Goal #5 - Develop projects and programs that improve infrastructure and sustainable development in our subregion.

Background:

Assembly Bill (AB) 602 (Grayson), effective January 1, 2022, added requirements related to development fees. Some components of the bill impact both jurisdictions and WRCOG, while other components will only affect jurisdictions. This staff report will briefly review AB 602, touching on the general requirements and providing a detailed review on how WRCOG is ensuring compliance with a specific provision of the bill. This provision requires that local agencies calculate fees proportionately to the square footage of the proposed units, and to have a valid method to establish a reasonable relationship between the fee charged and the burden of the proposed development.

The Transportation Uniform Mitigation Fee (TUMF) Program is an impact fee program subject to AB 602 that is not currently based on square footage but instead charges a fee on a per unit basis. This study provides the preliminary analysis required to address the requirements of AB 602 and further explore if a shift in TUMF collection from a per unit fee to a fee based on size (square footage) is appropriate.

AB 602

There are three major components of AB 602:

1. Permit Streamlining Act Changes: A city or county is required to request from the developer the total amount of fees and exactions associated with a project upon the issuance of a certificate of occupancy or the final inspection, whichever occurs last, and to post this information on its internet

website.

2. Direction to the California Department of Housing and Community Development (HCD): By January 1, 2024, HCD is required to create an impact fee nexus study template that may be used by local jurisdictions. The template will include a method of calculating the feasibility of housing being built with a given fee level.
3. Mitigation Fee Act Changes: A local agency that conducts an impact fee nexus study is required to follow specific standards and practices, including that 1) prior to the adoption of an associated development fee, a Nexus Study be adopted, 2) the Nexus Study identify the existing level of service for each public facility, identify the proposed new level of service, and include an explanation of why the new level of service is necessary, and 3) if the Study is adopted after July 1, 2022, either calculate a fee levied or imposed on a housing development project proportionately to the square footage of the proposed units, or make specified findings explaining why square footage is not an appropriate metric to calculate the fees.

The Transportation Uniform Mitigation Fee (TUMF) Program

The TUMF Program is an obligation that must be met on all new development in Western Riverside County, except for some uses that are deemed exempt from paying TUMF by the TUMF Program. So where the local agency has determined that TUMF is due, a developer will need to pay their TUMF fees. The fee for residential uses are charged on a per units basis of unit type (single-family or multi-family). For example, a 1,500 square foot single-family dwelling unit is charged the same fee as a 4,500 square foot single-family dwelling unit; similarly, an 800 square foot studio apartment unit is charged the same fee as a 1,200 square foot three bedroom apartment unit.

Single-Family and Multi-Family Residential Trip Generation Studies

WRCOG worked with Fehr & Peers to review the relationship between travel behavior, residential unit size, and other residential characteristics. The study enabled WRCOG to research if there is a correlation between residential unit size and trip generation. The correlation will enable WRCOG to determine if a size-based TUMF fee structure may encourage the development of smaller, more affordable units. The key findings for each of the studies is provided below and the full study is provided as an attachment to this Staff Report.

Single-Family Residential Trip Generation - Key Findings

- Is home size a key predictor of residential vehicle trip generation? Yes, for homes of 2,500 square feet or less the trips increase with the larger home size. After 2,500 square feet, the number of trips stay constant with home size, all else being equal.
- Are there other characteristics that have a higher predictive relationship than home size? Yes, the trip generation increases with the total household population, average number of children, and average number workers. Home size accounts for approximately 50% of the increase in home size for homes less than 2,500 square feet with the remaining 50% explained by multiple factors of the people within the home.
- Does the location (i.e., TUMF Zone) change the relationship of home size or the other characteristics? No, the home location may influence the size, number of people, or household income, and/or the distance the trips travel, but does not influence the trips generated.

- Are there recommended changes to the TUMF based on the findings? If so, what is the potential impact to the TUMF collection and home owners? Yes, it is recommended that smaller homes pay a fee based on home size. The appropriate fee should be evaluated by the TUMF fee consultant to determine the potential impact to fees collected compared to the current fee expectation. Smaller homes paying less could potentially make home ownership less expensive overall compared to larger homes.

Multi-Family Residential Trip Generation - Key Findings

- Are the size of the dwelling unit or number of bedrooms in a dwelling unit key predictors of residential multi-family generation? No, the size of the dwelling unit nor the number of bedrooms in a dwelling unit are key predictors of trip generation.
- Are there other characteristics that have a higher predictive relationship than the number of dwelling units? No, the number of dwelling units has the highest predictive relationship.
- Are there recommended changes to the TUMF Program or fee calculations based on the findings? If so, what is the potential impact to the TUMF collection process and to developers? No, it is not recommended that TUMF be updated from basing multi-family development fees on number of dwelling units.

Prior Action(s):

June 8, 2023: The Public Works Committee received and filed.

June 8, 2023: The Planning Directors Committee received and filed.

February 8, 2023: The Administration & Finance Committee received and filed.

January 19, 2023: The Technical Advisory Committee received and filed.

December 8, 2022: The Public Works Committee received and filed.

December 8, 2022: The Planning Directors Committee received and filed.

Fiscal Impact:

This item is for informational purposes only; therefore, there is no fiscal impact. The Residential Trip Generation Studies were covered in Transportation and Planning Department activities that were included in the Agency's adopted Fiscal Year 2022/2023 Budget under the Transportation Department. Additional analysis and presentations are covered in Transportation and Planning Department activities that are included in the Agency's adopted Fiscal Year 2023/2024 budget under the Transportation Department. Note: Fiscal impacts will be further analyzed with additional review and consideration of changes to the TUMF.

Single-Family Residential Trip Generation Study Memo

Memorandum

Date: November 16, 2022

To: Suzanne Peterson, Christopher Gray, and Chris Tzeng – WRCOG

From: Mike Wallace, Eleanor Hunts, and Jason Pack – Fehr & Peers

Subject: **WRCOG Residential Trip Generation**
Contract No. 2022-65-1400-004 / Task Order No. 2022-65-1400-004-003

OC22- 0864

This memo summarizes the goals, data and analysis, key findings, and recommendations relating to the evaluation of vehicle trip generation and residential development characteristics. Specifically, this memo is intended to inform the Transportation Uniform Mitigation Fee (TUMF) guidelines on the relationship between residential trip generation and home size (square footage) as prescribed in California Assembly Bill 602 (AB 602). This draft memo will be followed-up with a phone call to discuss the recommendations and the memo will be revised and finalized based on the call.

Key Findings

Questions answered through the analysis and the findings are listed below.

- Is home size a key predictor of residential vehicle trip generation? **Yes, for homes of 2,500 square feet or less the trips increase with the larger home size. After 2,500 square feet the number of trips stay constant with home size, all else being equal.**
- Are there other characteristics that have a higher predictive relationship than home size? **Yes, the trip generation increases with the total household population, average number of children, and average number workers. Home size accounts for approximately 50% of the increase in home size for homes less than 2,500 square feet with the remaining 50% explained by multiple factors of the people within the home.**
- Does the location (i.e. TUMF zone) change the relationship of home size or the other characteristics? **No, the home location may influence the size, number of people, or household income, and/or the distance the trips travel, but does not influence the trips generated.**

- Are there recommended changes to the TUMF based on the findings? If so, what is the potential impact to the TUMF collection and home owners? **Yes, it is recommended that smaller homes pay a fee based on home size. The appropriate fee should be evaluated by the TUMF fee consultant to determine the potential impact to fee collected compared to the current fee expectation. Smaller homes paying less could potentially make home ownership less expensive overall compared to larger homes.**

Data Collection

This section describes the data that were used to evaluate the trip generation. Specifically, the identification and selection of study areas, method for obtaining and results of the travel activity, and collection of residential characteristics.

Study Area Selection

To determine the home characteristics that might influence trip generation, representative residential neighborhoods in each of the TUMF zones were identified. The criteria used for selecting neighborhoods included the following:

- Residential land use could be isolated from other uses
- Minimal cut through traffic
- As close to Census Blocks or Block Groups as possible to obtain demographic information
- Minimal construction activity that would change the number of units
- Diverse home size, household income

Based on local knowledge, aerial photos, Census geography, and home information from Zillow, WRCOG staff identified a preliminary list of potential study locations in each TUMF zone. Through discussions and review of each location, Fehr & Peers narrowed down the list of study locations to 23 neighborhoods, shown on **Figure 1**.

Travel Activity

StreetLight Data from smart phones were collected at 23 residential neighborhoods shown on Figure 1 were collected for trips that started or ended within each neighborhood. This method excluded trips that cut through the neighborhood. To avoid holidays, vacations, and to reflect travel when school is in session, data from March 1st through April 30th and September 1st through October 31st for all weekdays in 2019 were collected to represent the average vehicle trips per day for all homes within each study area.

Since StreetLight Data are based on location-based services (LBS) derived from cellular phone applications, 48-hour traffic counts were conducted at eight of the 23 study area locations as a point of comparison. The eight representative count locations were selected to have at least one

location in each TUMF zone, minimize the number of roadways accessing the land use, and to allow the most accurate representation of trips associated with the residential homes without capturing cut through traffic. The eight locations where 48-hour counts were collected are shown on **Figure 2**.

As shown on **Figure 3**, the 48-hour traffic count variation from day to day and the StreetLight Data average are very similar, giving confidence that the StreetLight Data for all study areas would be representative.

Residential Characteristics

The number of homes and characteristics for the homes within each study area were obtained from multiple sources, as summarized in **Table 1**. To identify outliers and the range of values for each variable that would be used to estimate the trip generation, plots of each study location by TUMF zone were developed and are summarized below with reference to the appropriate figure.

- **Figure 4 – Median Square Footage:** good distribution across study areas and within each TUMF zone
- **Figure 5 – Average Persons per Household:** good distribution across study areas and within each TUMF zone
- **Figure 6 – Average Children per Household:** good distribution across study areas and within each TUMF zone, including one study area that has very high children per household and another study area that has very low children per household
- **Figure 7 – Average Workers per Household:** good distribution across study areas and within each TUMF zone
- **Figure 8 – Median Cost per Square Foot:** good distribution across study areas and within each TUMF zone

Based on the review of each variable, the range across the study areas and within each TUMF zone are appropriate for use in the trip generation analysis.

Trip Generation Results

The StreetLight Data daily vehicle trips were used to visually display the relationship of each home characteristic for each study area and within each TUMF zone. The appropriate figure number and conclusion for the relationship are listed below.

- **Figure 9 – Daily Vehicle Trips per Median Square Footage:** slight increase in vehicle trips as median square footage increases
- **Figure 10 – Daily Vehicle Trips per Average Persons per Household:** slight increase in vehicle trips as total number of people per household increases

- **Figure 11 – Daily Vehicle Trips per Average Children per Household:** slight increase in vehicle trips as average number of children per household increases
- **Figure 12 – Daily Vehicle Trips per Average Workers per Household:** slight increase in vehicle trips as average number of workers per household increases
- **Figure 13 – Daily Vehicle Trips per Median Cost per Square Foot:** no clear relationship between average number of workers and trip generation

In addition to visual representations of the data, statistical analysis was performed to obtain the correlation between the variables to daily vehicle trips and to determine the regression equations.

Figure 16 – Correlation Matrix for All Variables: the correlation values in the green box for average and median home size of 0.7 indicate a strong positive correlation and mean as home size increases the number of trips increase. The correlation value of 0.7 results in an R-square of 0.49, meaning nearly half of the increase in trip generation is related to home size.

Based on Figures 10 and 11, the relationship between trip generation appeared to be linear, with the relationship possibly changing around 2,500 square feet. The linear regression analysis of average home size was performed for all home sizes, homes 2,500 square feet or smaller, and homes larger than 2,500 square feet. The results of the analysis are summarized in **Table 2**. The results show for home sizes of 2,500 square feet or less, the influence of the home size (represented by the coefficient) is nearly double that when all home sizes are included in the regression. The nearly zero coefficient and very high constant for the regression of home sizes above 2,500 square feet indicate that the trip generation is nearly constant for homes above 2,500 square feet.

Recommendations and Next Steps

Although home characteristics other than square footage have a slight increase in trip generation, the ability to forecast or control all of the characteristics other than home square footage is very difficult. Based on the results of trip generation and discussions with WRCOG regarding the feasible size of homes being constructed in the region, WRCOG will work with the TUMF fee consultant to identify and recommend appropriate fee adjustments based on square footage.

Multi-Family Residential Trip
Generation Study Memo

Memorandum

Date: May 12, 2023

To: Christopher Gray - WRCOG
Chris Tzeng – WRCOG

From: Jason D. Pack, P.E.
Delia Votsch, P.E.
Raymond Poss

Subject: **DRAFT TUMF Multifamily Residential Counts and Trip Generation**
Task Order No. 2022-65-1400-004-007

OC23-0955

This memorandum summarizes the goals, data collection and analyses, key findings, and recommendations regarding the evaluation of multifamily development characteristics and trip generation. This memo is intended to inform the Western Riverside Council of Governments (WRCOG) Transportation Uniform Mitigation Fee (TUMF) guidelines on the relationship between multifamily trip generation, number of bedrooms per dwelling unit, and average size of dwelling unit.

Key Findings

Questions answered through the data analyses and findings are listed below.

- Are the size of the dwelling unit or number of bedrooms in a dwelling unit key predictors of residential multifamily trip generation? **No, the size of dwelling unit nor the number of bedrooms in a dwelling unit are key predictors of trip generation.**
- Are there other characteristics that have a higher predictive relationship than the number of dwelling units? **No, the number of dwelling units has the highest predictive relationship.**
- Are there recommended changes to the TUMF program or fee calculations based on the findings? If so, what is the potential impact to the TUMF collection process and to developers? **No, it is not recommended that TUMF be updated from basing multifamily development fees on number of dwelling units.**

Background

Western Riverside Council of Governments (WRCOG) provides local roadway funding in part through collection of fees through the Transportation Uniform Mitigation Fee (TUMF) program as part of new developments. These fees vary based on the level of impact the new development will have on traffic as determined by the characteristics of the development. The impact fee for multifamily residential developments is currently determined by the number of dwelling units (DUs).

As required by new state legislature (AB-602), agencies are required to account for the size of the dwelling unit when developing impact fees. As such, Fehr & Peers was contracted to evaluate the relationship between trips generated by multifamily apartment complexes to determine if attributes other than number of dwelling units, including number bedrooms per dwelling unit and average size of dwelling unit, significantly affect trip generation.

Data Collection

This section describes the data used to evaluate multifamily trip generation, including the selection of locations and methods for collecting trip data, apartment characteristics, and regional Census data.

Study Selection Area

To evaluate the effect of dwelling unit size and number of dwelling unit bedrooms on multifamily trip generation, the following criteria were used to select the apartment complexes within Western Riverside County:

- Minimum of one complex per TUMF Zone (five zones total)
- Complexes not within a Transit Priority Area (TPA)
- Complexes not near a college or university

Through discussions and review of each location with WRCOG, Fehr & Peers narrowed the study locations to 12 multifamily apartment complexes as shown on **Figure 1**.

Travel Activity

Trips were observed at each of the 12 complexes by collecting vehicle counts during typical weekdays at each driveway over a three-day period. Trip observations for each complex were averaged over the three-day period and summarized below in **Table 1** for Daily, AM Peak Period, and PM Peak Period counts. Raw data counts taken over the three-day period can be found

Residential Characteristics

Apartment characteristics, listed below, were obtained from a variety of sources, including conversations with apartment leasing agents, property webpages, Census data, Zillow.com, and the Assessor's Office of Riverside County web page.

- Number of dwelling units
- Number of apartment styles (i.e., number of one-bedroom units, two-bedroom units, etc.)
- Average size (square footage) of dwelling units
- Average number of bedrooms per dwelling unit
- Median monthly household income by Census Tract
- Average number of persons per household by Census Tract
- Proximity to nearest public school

The average size of each dwelling unit was calculated by dividing the total size of all combined dwelling units by the total number of dwelling units. Similarly, the average number of bedrooms per dwelling unit were calculated by dividing the total number of bedrooms by the number of dwelling units. These apartment characteristics are shown below in **Table 2**. Specific information related to each apartment complex are provided in **Appendix B**.

Table 2: Apartment Characteristics

Study Site #	Location Name	# of DUs	Average Size of DU (Sq. Ft.)	Average Number of Bedrooms	Median Monthly Household Income (Dollars)	Average # of Persons per Household	Proximity to Nearest School (Mi)
1	Oakwood Apartments	241	1,040	3.0	\$65,240	3.92	0.2
2	Springbrook Park Apartments	112	955	2.0	\$77,148	3.6	0.5

Trip Generation Analysis

Using the data described above, a statistical analysis, including a regression and correlation assessment, was performed to evaluate if a statistically significant relationship exists between multifamily trip generation and the following variables to determine if an update to the development fee calculation was justified.

- Number of dwelling units
- Average size of dwelling units
- Average number of bedrooms per dwelling unit
- Median monthly income
- Average number of persons per household
- Proximity to nearest public school

Correlation Analysis

A correlation analysis was also performed to determine if a one-to-one relationship exists between daily trip generation and an apartment characteristic listed above. **Figure 2**, below, shows the results of the correlation analysis, with darker green cells representing a stronger, positive correlation.

The correlation analysis indicates that daily trip generation has a **strong, positive correlation with the number of dwelling units** and a **moderate, positive correlation with average size of dwelling unit**. All other variables are indicated to have a weak or very weak positive correlation with trip generation.

Figure 2: Trip Generation Correlation Matrix

	Total Vehicles	# of DUs	Average # of Bedrooms per DU	Average DU Size (Sq. Ft.)	Median Monthly Income	Average Household Size	Proximity to Nearest School
Total Vehicles	1.00	0.87	0.29	0.46	0.06	0.34	0.21
# of DUs	0.87	1.00	-0.17	0.43	0.20	0.18	0.51
Average # of Bedrooms per DU	0.29	-0.17	1.00	0.13	-0.09	0.36	-0.60
Average DU Size (Sq. Ft.)	0.46	0.43	0.13	1.00	0.55	0.51	0.16
Median Monthly Income	0.06	0.20	-0.09	0.55	1.00	0.25	-0.02
Average Household Size	0.34	0.18	0.36	0.51	0.25	1.00	0.21
Proximity to Nearest School	0.21	0.51	-0.60	0.16	-0.02	0.21	1.00

Source: Fehr & Peers (2023)

Regression Analysis

An ordinary least squares regression at a 95% confidence interval was performed on the above variables against daily trip generation to screen out variables that yielded statistically insignificant results. The results of the first regression are shown in **Table 3**.

Table 3: Regression Results

Variable	P-Value ¹	Statistically Significant
Number of dwelling units	<0.05	Yes
Average size (square footage) of dwelling units	>0.05	No
Average number of bedrooms per dwelling unit	<0.05	Yes
Median monthly household income	>0.05	No
Average number of persons per household	>0.05	No
Proximity to nearest public school	>0.05	No

Source: Fehr & Peers (2023)

1. P-Values < 0.05 are considered statistically significant. P-Values > 0.05 are considered statistically insignificant.

A subsequent regression was run with the least statistically significant (highest P-value) variable removed. This process was repeated until all remaining variables yielded statistically significant P-values (less than 0.05), resulting in the number of dwelling units and average size of dwelling unit as the remaining variables. The P-Values for these variables are shown below in **Table 4**.

Table 4: Filtered Regression Results

Variable	P-Value ¹	Statistically Significant
Number of dwelling units	4.8×10^{-07}	Yes
Average size (square footage) of dwelling units	0.0002	Yes

Source: Fehr & Peers (2023)

1. P-Values < 0.05 are considered statistically significant. P-Values > 0.05 are considered statistically insignificant.

The regression analysis indicates that **number of dwelling units** and **average size of dwelling unit** are statistically significant predictors of multifamily trip generation.

To validate these results, a forward stepwise regression was also completed. A forward stepwise regression is completed by beginning with no variables in the model, and then adding them one at a time based on which has the smallest p-value when tested one at a time. This isolates any possible relationships between the variables and further helps confirm if the vehicle trip rate has a statistically valid correlation to the variables tested.

Table 5: Forward Stepwise Regression Results

Variable	Relationship Rank ¹	P-Value ²	Statistically Significant
Average size (square footage) of dwelling units	4	0.377	Yes
Average number of bedrooms per dwelling unit	1	0.0008	No
Median monthly household income	3	0.249	Yes
Average number of persons per household	5	0.509	Yes
Proximity to nearest public school	2	0.0239	No

Source: Fehr & Peers (2023)

1. Relationship rank indicates which variable has the strongest correlation with daily vehicle trip rate.
2. P-Values < 0.05 are considered statistically significant. P-Values > 0.05 are considered statistically insignificant.

As noted in Table 5, the variables with the strongest relationship to daily vehicle trip rate (number of bedrooms and distance to nearest school) are not statistically significant.

Trip Generation Results

In both the regression and correlation analyses, the number of dwelling units was found to be the strongest predictor of daily trip generation. All other variables had positive but weaker correlations to daily trip generation, and none were found to be statistically significant predictors of multifamily daily trip generation under both regression analyses.

Table 6: Summary of Trip Generation Results

Variable	Overall Relationship Ranking ¹	Statistically Significant	
		Filtered Regression	Forward Regression
Number of Dwelling Units	1	Yes	Yes
Average number of bedrooms per dwelling unit	2	Yes	No
Proximity to nearest public school	3	No	No
Average size (square footage) of dwelling units	4	No	Yes
Average number of persons per household	5	No	Yes
Median monthly household income	6	No	Yes

Source: Fehr & Peers (2023)

1. Overall relationship rank indicates which variable has the strongest relationship with daily vehicle trip rate under the correlation and forward stepwise regression analyses.

Recommendations and Next Steps

The results of this statistical analysis indicate that the best predictor of trip generation for multifamily apartment complexes in Western Riverside County is the number of dwelling units (the current basis for development fee calculation). Although other variables showed a positive correlation with trip generation, none yielded as strong a relationship. Based on this statistical analysis, it is not recommended that these other variables be incorporated into the TUMF program.

Staff Report

Subject: REAP SRP 1.0 & 2.0 Housing Activities Update
Contact: Chris Gray, Deputy Executive Director, cgray@wrcog.us, (951) 405-6710
Date: August 17, 2023

Requested Action(s):

1. Receive and file.
-

Purpose:

The purpose of this item is to provide an update regarding WRCOG's activities related to REAP grants which support housing-related planning efforts.

WRCOG 2022-2027 Strategic Plan Goal:

Goal #2 - Identify and help secure grants and other potential funding opportunities for projects and programs that benefit member agencies.

Background:

The Regional Early Action Planning (REAP) Grant Subregional Partnership Program is intended to increase planning to accelerate housing production throughout the SCAG region through implementable actions that will increase housing supply to meet the 6th Cycle Regional Housing Needs Assessment (RHNA). The Subregional Partnership Program (SRP), conducted as part of the initial REAP funding, also known as REAP 1.0, has been designed to augment and complement funds that were awarded to jurisdictions by the California Department of Housing and Community Development (HCD) pursuant to SB 2 Planning Grants and the Local Early Action Program (LEAP) grant program.

SCAG is receiving a second allocation of funding deemed "REAP 2.0," a flexible Program that seeks to accelerate progress towards State housing goals and climate commitments through a strengthened partnership between the State of California, its regions, and local entities. REAP 2.0 seeks to accelerate infill housing development, reduce Vehicle Miles Traveled (VMT), increase housing supply at all affordability levels, affirmatively further fair housing, and facilitate the implementation of adopted regional and local plans to achieve these goals.

Housing Overview in the WRCOG Subregion

The REAP Program, along with other State programs, is ultimately intended to increase the supply of housing within California, which is thought to reduce housing cost and make housing more available and affordable to California residents. When evaluating the potential benefits of the use of REAP funds, it is helpful to understand trends related to housing within the WRCOG subregion.

WRCOG regularly tracks building permits and development activity through the TUMF Program. Based on TUMF Program reporting by jurisdiction, WRCOG is able to maintain a comprehensive overview of development activity across the WRCOG subregion.

Based on this data, WRCOG determined that approximately 110,000 residential permits were issued between 2003 and 2023. Of these permits, 81% were for single-family units with the remaining 19% for multi-family units. Approximately one-half of these permits were issued between 2003 and 2006 with the remaining permits issued from 2007 or later. Even with an increase in development activity overall since 2015, the number of residential permits has remained relatively stable at approximately 5,000 to 6,000 per year. While there has been a recent increase in multi-family permits, there has been a corresponding decrease in the number of single-family permits. Figures 1, 2, and 3 on Attachment 1 to this Staff Report provide the number of permits by dwelling unit type and the total number of permits from 2003 to 2023.

During this time, there has been a significant increase in median home prices across Riverside County. For the entire County, median home prices have increased from \$277,239 in 2003 to \$628,000 in 2023. The median home price has therefore increased by 127% during this same period. During this same period, median household income Countywide has increased from \$44,598 to \$78,690, which is an increase of 76%. Based on this data, we can conclude that household income growth has significantly lagged increases in home prices. In addition, for comparison, the cumulative inflation rate from 2003 to 2023 for the country is about 59%.

Another significant trend related to housing supply is the prevalence of larger home-builders. Approximately 80% - 90% of all building permits are generated through applications submitted by larger, publicly-traded corporations such as Lennar, Pulte, Meritage, Tri-Point, KB, and DR Horton. These builders often build groups of homes, securing multiple TUMF permits at once. The remaining 10% - 20% of TUMF applications originate from contractors and individual home-owners who develop a single home.

WRCOG also evaluated the number of available residential lots that could be developed within the WRCOG subregion. Based on data supplied by WRCOG member agencies, it is estimated that as many as 200,000 residential lots have some level of entitlement, an approved Development Agreement, or other mechanism that would allow those lots to develop with limited additional effort. Based on anecdotal evidence, it would appear that residential developers are prioritizing the acquisition of previously approved but unbuilt sites instead of focusing on new entitlements given the cost and time required to complete the environmental process. Given the current pace of development, staff estimates that it could take 30 years for all of the unbuilt lots to be absorbed if no further entitlements are granted.

A final item evaluated by WRCOG was the instance of accessory dwelling units (ADUs) which have been permitted within Riverside County. Based on the most recent data provided by the HCD, the level of ADU construction in Riverside County appears to be nominal. In total, there were only 229 ADUs permitted for final occupancy in all jurisdictions within Riverside County in a single year. That total includes both the incorporated areas and the unincorporated areas across Riverside County - inclusive of both the WRCOG & Coachella Valley regions. Based on research compiled by WRCOG, it appears that over two-thirds of all ADU applications statewide are not completed due to cost, difficulty in securing permits, or other constraints.

Given the data above, WRCOG evaluated the likelihood that the pace of residential construction would change significantly from current levels. WRCOG determined that the most likely scenario is that the level of construction would not change significantly from current levels based on the following considerations:

- Household incomes are not likely to increase significantly over current levels, meaning that those residents who are currently unable to afford to purchase a home are not likely to be able to do so.
- If there are not sufficient buyers, then home builders will not build additional homes beyond their current level since they are unlikely to build more homes than the market can conceivably absorb. Many key stakeholders within these homebuilding companies have prior experience with an economic downturn and are cautious when it comes to increasing their rate of construction beyond the level that they know the market can absorb. The fact that the rate of residential construction has remained constant since 2015 leads credence to this perspective.
- The rate of residential development also is not constrained by the number of available lots. Because of this, any efforts to increase the number of available lots is not likely to change the pace of construction.
- The majority of construction continues to be for single-family homes. Additional unit construction associated with new development types such as ADUs are not likely to increase the housing supply.
- There is a recent trend for more multi-family housing projects with a commensurate reduction in single-family units. If this trend continues, there will likely be a similar number of total units with the share between single-family and multi-family units fluctuating, depending on market conditions.

Housing-Related Legislation

Much of the recent discussion in California related to housing has focused on State attempts to impose additional requirements on local governments or limit discretionary actions by local governments, particularly those with land use authority. An example of one such long-standing regulation is the Regional Housing Needs Assessment (RHNA), which is a process through which the State of California allocates a number of units, stratified by affordability, to each local jurisdiction. That jurisdiction is then responsible for adopting a Housing Element, which documents potential housing sites and policies which the jurisdiction will employ to facilitate housing construction.

Over the past several years, there has been a proliferation of additional legislation related to local land use decision-making and project approvals. Some noteworthy examples include:

- SB 9 - also known as the 'fourplex bill,' allows single-family zoned lots to be subdivided and developed with up to two primary dwelling units on each lot.
- SB 330 - restricts or limits downzoning (no net loss), freezes development fees at pre-application phase, prohibits growth control measures, and expands permit streamlining provisions for residential developments.
- SB 743 - changes CEQA requirements for evaluating transportation impacts from Level of Service (LOS) to VMT to reduce greenhouse gas emissions and encourage infill development.
- AB 602 - requires impact fees to be based on size (not per dwelling unit) and require local agencies to publicly post all fees and exactions associated with a residential development project.
- AB 2011 & SB 6 - provides avenues for permitting residential development in commercial zones.

What is noteworthy is that while much of the focus has been on legislative efforts in California, there appears to be a growing effort nationwide by State Legislatures to limit local land use authority or otherwise exert influence over land use decisions, which have historically been a province of local governments. Some national examples where legislative efforts have been implemented or are currently being considered include but are not limited to the following:

- Colorado
- Connecticut
- Florida
- Maryland
- Montana
- New Jersey
- New York
- Virginia
- Washington

As a further example of this trend, several municipalities in Texas are considering legislation similar to SB 9. In many instances, the motive for this legislative activity is related to housing affordability and reflect a desire by policy-makers to take some action to increase housing supply and therefore reduce the cost of housing. Because of that, staff can only assume that there will continue to be additional efforts to restrict local land use controls.

REAP Funding

Over the past several years, many local governments have expressed a need for additional funding for planning for and implementing housing projects, noting that they often lacked the resources to fully update General Plans, Zoning Codes, Housing Elements, and other related documents. While the State has long mandated that local governments comply with the requirements of the RHNA process, they rarely have provided any funding to assist with this process. Examples of these funding programs include SB 2, which provided direct funding to local agencies, and the REAP Program. The concept behind the REAP Program was to create a flexible source of funds that local governments could use for planning purposes with the ultimate goal of creating additional housing within California.

The REAP Program is administered jointly by HCD and Metropolitan Planning Organizations (MPOs). For WRCOG, this structure means that HCD and SCAG are providing the funding to WRCOG through a Memorandum of Understanding (MOU). This MOU process requires SCAG to approve anticipated projects prior to the project initiation to ensure that entities such as WRCOG who are receiving funds are able to be reimbursed for their expenses.

During initial discussions regarding REAP funding with WRCOG member agencies through WRCOG's Planning Directors Committee, multiple themes became evident:

- The majority of WRCOG member agencies needed some level of assistance with preparing and submitting their housing elements, particularly as it relates to some of the new requirements recently implemented by HCD.
- Many jurisdictions found it challenging to process development applications given the level of development activity they were experiencing.

- Jurisdictions often needed assistance with technical studies and documents to allow them to address new legislative requirements.

With this feedback in mind, staff developed an approach to REAP which focused on helping WRCOG member jurisdictions comply with the ever-changing State regulations while maximizing their local discretion over land use decisions. Staff also sought to provide flexible solutions that reflect each jurisdiction's needs within the REAP framework.

REAP SRP 1.0 Activities Update

WRCOG was allocated approximately \$1.7M through the REAP SRP program to provide assistance to the subregion's local jurisdictions. WRCOG proposed projects to utilize the allocated funding, which was approved in late 2020. WRCOG later entered into a MOU with SCAG in March 2021, that includes approval of the proposed projects. Since 2021, WRCOG has completed and continues to work on a variety of projects utilizing REAP funding. Some projects are intended to be a resource for all WRCOG member agencies, while other projects focus on providing direct assistance to individual cities. All projects will be completed by December 2023. A summary of these projects is provided below and additional information can be found on WRCOG's website at <https://wrcog.us/335/Housing>.

These projects include:

- SB 9 Toolkit - includes a model ordinance, infographic, fact sheet, development scenarios, and soon to include a technical memo that will look at the potential applicability of the bill across each city considering several limitations set by the legislation. The purpose of this toolkit is to provide member agencies with the maximum amount of control over SB 9 applications should any applications come forward.
- Objective Design Standards Toolkit - contains a variety of model standards from many different design styles found throughout the Western Riverside County region, agencies can pick and choose which standards they would like to use or incorporate. Similar to the SB 9 toolkit, this tool is intended to provide member agencies with the ability to have the maximum level of control over housing projects within the context of existing State legislation and regulations.
- Affordable Housing Pipeline - a mapped inventory of known affordable housing projects in the WRCOG subregion that are currently in progress or recently completed and includes additional data related to affordable housing development. The purpose of the pipeline is to be a resource for member agencies and the Housing Authority of Riverside County in understanding where affordable housing projects are, what phase they are in, and identifying good candidate sites based on requirements and scoring criteria for funding opportunities.
- GIS Underutilization and Sites Analysis - helps jurisdictions identify locations that are built out substantially below what is currently allowed by zoning. These data sets and maps allow each member city to understand where, and by how much, properties are ready for redevelopment.
- Pro-housing Designation Feasibility Study - will assess the likelihood of a city's ability to successfully apply for HCD's Pro-housing Designation. Having HCD's Pro-housing Designation will open cities up for additional funding opportunity for housing and potentially allow them to score higher on other State planning and transportation funding opportunities as well.
- Local Housing Assistance - provides customized assistance to requesting cities. Activities have included SB 330 application assistance, housing development preliminary application review, in-lieu fee development of an inclusionary housing ordinance, pro-housing designation application

assistance and submittal, and municipal code amendments. The purpose of this assistance is to provide customized assistance, helping cities with activities that are specific to their city, where staff time or budget might be limited, therefore making the activity burdensome or infeasible.

REAP SRP 2.0 Overview

The REAP 2.0 Program was established as part of the 2021 California Comeback Plan under AB 140 that builds on REAP 1.0 but expands the Program's focus by integrating housing and climate goals. REAP 2.0 Program objectives are to (1) accelerate infill development that facilitates housing supply, choice, and affordability; (2) affirmatively further Fair Housing; and (3) reduce VMT.

The State has made approximately \$600M available state-wide to fund REAP 2.0 Programs. Of that, SCAG is receiving approximately \$246M. One of SCAG's programs is a second round of the SRP in partnership with local Councils of Governments (COGs). WRCOG is eligible to receive up to \$1.6M in SRP funding through REAP 2.0. Other COGs and some counties, including Riverside County, have also been allocated REAP SRP 2.0 funding, separate from the WRCOG allotment. This amount is based on a non-competitive allocation formula set by SCAG.

REAP SRP 2.0 Application & Timeline Update

WRCOG submitted an application to SCAG in early June 2023 for activities it will utilize REAP 2.0 SRP funding and anticipates receiving feedback to address adjustments and clarifications required by HCD and SCAG. In the submitted application, WRCOG outlined two projects:

1. Pro-housing Designation Assistance - For cities likely able to achieve the successful award of the designation, assist interested cities with HCD's Prohousing Application to meet requirements and provide assistance with submittal and response. For cities which are likely not well positioned, offer assistance that would help it score higher so that a successful application can be submitted and award designated.
2. Housing Element Implementation - Assist cities with implementing Housing Element programs that go above and beyond the minimum legislative requirements, further infill development, reduce VMT, and Affirmatively Further Fair Housing. Providing assistance to cities with this second round of funds will likely be more limiting; WRCOG will be reaching out to individual cities to coordinate on potential requests for assistance.

SCAG has indicated that additional procurements will be required by the State. To meet these requirements, WRCOG will likely have to open a new RFP to establish a bench of on-call consultants to work on REAP SRP 2.0 projects. WRCOG is continuing to work closely with SCAG on how to satisfy these requirements as to not cause an undue delay. An MOU is anticipated to be ready for review between January and March 2024, and will be presented to the Executive Committee shortly thereafter for approval and to enable the WRCOG Executive Director to execute.

Prior Action(s):

August 9, 2023: The Administration & Finance Committee received and filed.

March 16, 2023: The Technical Advisory Committee received and filed.

March 6, 2023: The Executive Committee directed staff to submit a grant application to the Southern California Association of Governments for the SRP under REAP 2.0 Program in the amount of \$1.6M.

February 9, 2023: The Planning Directors Committee received and filed.

Fiscal Impact:

WRCOG's REAP SRP 2.0 grant application, if approved by SCAG, will allow WRCOG to secure up to \$1.6M in funding through the REAP 2.0 Program. Once this grant application is approved by SCAG, WRCOG and SCAG will execute an MOU which will allow WRCOG to secure this funding. This MOU will be brought to the WRCOG Executive Committee for its approval at a subsequent meeting. The amount is set by a formula allocation and has been included in the Fiscal Year 2023/2024 Agency Budget.
